Experience

2019	**Practical training** – I was a part of the Sberbank web development team for over 2 months. I mostly just listened to the lead developer and I tried to understand as many things as I could. In these two months, I got plenty of UX/UI experience, basic „Do's" and „Dont's „ etc.

Hobbies

Ice Hockey	I am active ice hockey player for over 10 years, I have tried many sports as a kid and hockey just melted to my heart. Currently I am playing for HK králův dvůr based in Beroun
Python programing	Python is in my opinion very easy programing language to understand. I didn't code anything with bigger purpose that facilitate my coding experience. For example, I have created basic script that creates github repository and initializes folder that this script was executed from
Gaming	In my spare time I tend to play co-op pc games with my friends
